OUR COMMUNITY'S CONTRIBUTIONS AMIDST CHANGING CIRCUMSTANCES

- Challenges and tests should strengthen our unity, passion and cooperation in doing good.
- We should take the opportunity of upgrading ourselves during this economic recession.
- Part of doing good is to take good care of our health and cleanliness.
- A good Muslim will strive to bring benefit and prosperity to those around us.
- By doing that, we have done our part to contribute to society. We have also done good to ourselves and our families.
