PRESERVATION of MORALITY of the SPIRIT of HELPING ONE ANOTHER AS The OBJECTIVES of the SYARIAH

- From this pulpit in the past, we have learnt some of the objectives of the Syariah, with regards to establishing human relations.
- Today, let us learn a few other objectives of the Syariah that will make us righteous and successful individuals.
- First is that the Syariah seeks to preserve religion and morality. Infact, akhlak or moral character is very important in Islam.
- The second objective of the Syariah is to form an ummah and community which offers help, support and give assurance to one another in all aspects of life.
- For example, many mosques in Singapore are currently running the Rahmatan lil 'Alamin campaign. Through the mass blood donation exercise, many have come forward to donate blood. This will help save lives.
- Let us strive to practice these values in our daily lives. InshaAllah, we will be able to lead a successful religious life that will bring us happiness in this world and the hereafter Amin.
