

## Summarised Friday Sermon

28 DECEMBER 2008

### MAKE SELF-EXAMINATION AS AN ACT OR WORSHIP ( IBADAH )

- We will soon step into a new business and school year, the year 2008. And soon thereafter, in around two weeks after the Gregorian new year, we will also meet a new Islamic year, 1429H. This is the nature of life.
- Day after day, a week after the other, a month following another, and a year after a year, time moves around us as ordained by Allah the Al-Mighty.
- When we are blessed with time on earth, we must use it to do good deeds.
- We do not have much choice, apart from aiming to do the best in our lives; the best in the eyes of Allah, the best in our relations with mankind around us, and the best in handling the environment and Allah's creations.
- Let us continue to strive and resolve to become a successful and resilient ummah and community, confident in overcoming all challenges and tests, in its path towards everlasting joy, happiness and success in this world and the hereafter.
